

## NGLT Series

Elevate your working at height experience with the NGLT General Trade Extension Ladders, combining lightweight design, robust construction, and enhanced safety features for frequent trade use.

### Key Benefits

- **Lightweight Design:** Easy to transport and manoeuvre, reducing user fatigue.
- **Comfortable Climbing:** Strengthened D-shaped rungs ensure a comfortable grip and footing.
- **Enhanced Stability:** High-quality stabiliser bar with a larger footprint to minimise sideways slips.
- **Durable Construction:** Made in the UK from premium aluminium and box section stiles for long-lasting use.
- **Eco-Friendly Materials:** Our rungs are made from UK-sourced Recycled Low-Carbon Aluminium 4.0, ensuring reduced environmental impact.
- **Many Sizes Available:** Available in 2 and 3 sections to suit a variety of tasks.
- **Maximum Load Capacity:** 150kg - ideal for demanding trade applications.
- **Professional Certification:** Certified to EN131-2, ensuring reliability and compliance with safety standards.

Available in 8 sizes

## Specifications

Code	No. of Sections	No. of Rungs Per Section	Weight kg	Closed Length mm	Extended Length mm	Max Standing Height mm*	Approx. Working Height mm*	Stabiliser Width mm
NGLT/NBD225	Double	7	8.70	2200	3290	2540	4290	1000
NGLT/NBD230	Double	9	10.40	2700	4370	3620	5370	1000
NGLT/NBD235	Double	11	13.00	3300	5600	4850	6600	1000
NGLT/NBD240	Double	13	17.00	3800	6600	5850	7600	1200
NGLT/NBD245	Double	15	20.20	4400	7720	6970	8720	1200
NGLT/NBD325	Triple	7	13.00	2200	4400	3650	5400	1000
NGLT/NBD330	Triple	9	19.50	2700	6100	5350	7100	1200
NGLT/NBD335	Triple	11	25.00	3300	7740	6990	8740	1200

\*Where applicable, the Approx. Working Height is calculated by adding 1750mm (5'8") to the Max Standing Height. This assumes the ladder is positioned at a 75° angle.
