MOUNTZ 280036 Torque Wrench Specs

The Mountz EPT adjustable click torque wrench features an external adjustment torque scale, which allows an operator to quickly adjust the torque setting on the tool as needed for different applications. The cost-effective click wrenches are durable and robust for a wide variety of industrial fastening applications. The EPT adjustable click wrench is built with high-quality materials to ensure low repair frequency and less repair costs.

- Durable and robust for industrial fastening applications.
- Adjustable torque wrench with a square drive. Bi-directional ratchet head.
- External dual scale (American & S.I.) Graduation collar on the torque handle.
- Easy to read laser marked scale.
- Crafted with a strong steel shaft with high corrosion resistance.
- Lightly knurled non-slip grip.
- 48 tooth ratchet
- Positive lock with spring-loaded pull-down ring.
- Positive clicks can be heard and felt when torque is reached.
- This adjustable click wrench is ideal for field service, maintenance or production environments.
